

## **Alley In Disrepair?**

Although the Township is not authorized to maintain or repair private alleys, there is some blacktop material that we can make available for those who wish to patch or fill holes in alleys adjacent to their homes. The material comes from a process called “milling” whereby a machine scrapes the top layer off a road in order to make room for a new coat of blacktop. The millings are placed on a pile and are available to any Township property owner or tenant who wishes to pick up the material and use it to fill potholes in the alley. Contact Bill Mahone at 717-637-1561 to arrange pickup.
