Press Release Closing of Kid's Kingdom Creative Playground February 22, 2021

It is with great regret that the Township of Penn announces the closing of the Kids Kingdom Creative Playground at the Penn Township Community Park. The structure was built through a community build in 1996. The park was a playground for thousands of children over the last twenty-five years. The facility needed to be closed because the facility has outlived its useful life of twenty years. We apologize for the inconvenience. The Township looks forward to a new creative playground opening in the Summer of 2022. This playground will have many modern amenities as well as being ADA compliant. Below is rendering of the draft reinvented park. We will continue to provide updates on a grand reopening as we move forward.
